

Alex the Astronaut

Hi! My name is Alex. Yesterday my dad took me to the Aerospace Museum. We go very often because we both like to investigate and learn about outer space, planets, and stars. In fact, I want to be an astronaut when I grow up. Every night I dream about being one! In my dreams I wear a spacesuit, like the ones I have seen at the museum. I command a spaceship and visit other planets. I meet friendly aliens, and discover new stars. My dreams are so real that sometimes I even feel like I am floating in space. My dad says that in order to be an astronaut I have to study very hard, so that's what I am going to do right now. Goodbye!
