SCIENCE: In this Trimester we have completed Block 2; Unit 1 and 2. The activities that are going evaluated during this Trimester are: Page 42, page 50, page 58, page 66 and evidence of the egg activity.

4^oB will need to have their material on March 3rd and they will expose their project on March 10th

In this Project, students will create a model of one biome. Students will do the project during the Science Class.

Materials:

- Recycled material.
- Construction paper (Papel cascarón).

IMPORTANT: THE PROJECT IS A MODEL, NOT A DRAWING

Students will choose a biome and they are going to develop a model exemplifying the characteristics this biome has. The model needs to show what animals and plants live there, also it has to show one food chain and explain how that food chain works.

The conversation activity will be the presentation that students will do explaining the characteristics of the habitat without reading (memorize), the animals and plants that live there and one food chain.

Rubric

Information	The project needs to have name of the student, name of the habitat, names of the 5 animals that live there and name of 3 plants that grow.
Neatness	The work is clean and clear.
Handwriting	The written text can be understood.
Spelling	Words are written correctly.
Presentation	Students explain the characteristics of the habitat without reading (memorize), the animals and plants that live there and one food chain.
Materials	The work has been made with the asked materials.
